

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office
FLOOR DEBATE

May 14, 2001

LB 851

guess I would ask Senator Bromm a question, if he would yield.

SENATOR BROMM: Yes, Senator Quandaahl.

SENATOR QUANDAHL: Senator Bromm, you're on the Redistricting Committee and I know you've reviewed some of the different case law and that, and I would notice was one of the considerations for your amendment the fact that population deviations are an important consideration?

SENATOR BROMM: Right. Our...our plan...this plan is zero deviation.

SENATOR QUANDAHL: And if...it looks like to me is that you stated previously that you voted against the committee amendment. In the committee amendment there is some population deviation. Is that correct?

SENATOR BROMM: That's correct.

SENATOR QUANDAHL: Okay, and do you know what were those?

SENATOR BROMM: I'd have to...I don't have the exact numbers in front of me, I'm sorry.

SENATOR QUANDAHL: I can tell you right now. It looks like in the First District it's off. It's under by a half of one percent. In the Second District there is a zero population deviation. And in the Third District it looks like it's over by one-half of a percent. And that is the committee amendment and is that one of the reasons why you voted against that particular committee amendment?

SENATOR BROMM: Well, certainly if there are two plans and I look at them both, I would want to try to vote for the one that had the zero...

SPEAKER KRISTENSEN: One minute.

SENATOR BROMM: ...or closest to zero population disparity.
